SUMMARY

Creative and detail-oriented Social Media Specialist, Video Editor and Graphic Designer with a solid technical foundation (BS Information Technology). I help brands and creators grow with scroll-stopping short-form content, polished video edits and clean, on-brand design — backed by reliable virtual assistance and AI-powered workflows. Comfortable working remotely, managing my own schedule and learning fast.

CORE SKILLS

- **Social Media Management:** Content calendars, short-form strategy, hooks & captions, community management and scheduling across TikTok, Instagram, Facebook & YouTube.
- **Video Editing:** CapCut Pro — Reels, TikToks & YouTube Shorts with captions, transitions, color, sound design and AI voiceovers.
- **Graphic Design:** Canva & Adobe Photoshop — thumbnails, brand kits, social creatives, ads and posters.
- **Virtual Assistance:** Email & calendar management, research, data entry, documentation and day-to-day operations support.
- **AI Tools:** ChatGPT, Claude, AI prompt engineering and AI image/voice workflows to work faster and smarter.
- **Technical (bonus):** HTML, CSS, JavaScript, WordPress, SQL and Git/GitHub — able to build and maintain websites when needed.

EXPERIENCE

On-the-Job Trainee — IT & Web Department Feb – Mar 2026 · 300 hours
TeamAsia (Hamlin-Iturralde Corporation)

- Updated and maintained website content, performed QA testing and troubleshooting using WordPress, HTML/CSS and PHP.
- Collaborated on web projects and produced system documentation and technical support.
- Built strong habits in communication, attention to detail and meeting deadlines within a professional team.

Freelance Content Creator & Designer Ongoing
Self-directed / Independent

- Edit short-form videos (Reels, TikToks, YouTube Shorts) in CapCut Pro — captions, pacing, sound and AI voiceovers.
- Design thumbnails, social media creatives and brand assets in Canva and Adobe Photoshop.
- Plan content and use AI tools (ChatGPT, Claude) to speed up ideation, scripting and captions.

TECHNICAL PROJECTS

- **BookEase — Appointment Booking System** (VB.NET, SQL Server): user authentication, appointment and database management.
- **User Management System with Approval Workflow** (VB.NET, SQL Server): role-based access, approval processes and account security.
- **Employee Attendance & Payroll System** (VB.NET, SQL Server): salary calculation from attendance records and SQL database design.
- **Volunteer & Fitness Class Booking Systems** (VB.NET, SQL Server): records, scheduling, reporting and user testing.
